PROCEDURE FOR EMBRYOS

1. All Dams whose Embryos are recovered must be DNA tested before any resulting offspring will be registered. DNA testing fee to be paid by breeder.
2. All Embryo Recovery/Implant sheets must accompany the Application for Registry when registering the calves.
3. All Embryos that are sold, an Embryo Ownership Transfer form must be filled out and transfer fee paid.
4. Live births resulting from an Embryo Transfer will not be registered by AMSS unless the above polices are followed.
5. All ET registrations will be registered from the AMSS office only.

PROCEDURE FOR REGISTERING BULLS

1. All bulls submitted for registration must be DNA tested before registration certificate will be issued. The owner of the bull will be responsible for all expenses for meeting these requirements.
2. If the bull is to be used for Artificial Insemination, any living parent must have DNA testing completed. The costs of DNA testing is the responsibility of the owner.
3. If the bull is to be used for natural service only, parents do not need to be DNA tested.
4. All bulls that are collected, whether through a bull stud or through private collection, must pay a listing fee to be listed with the NAAB Cross Reference program. Offspring produced by Artificial Insemination cannot be registered until the bull is listed with NAAB. The fee for listing with the NAAB is the responsibility of the owner and must be paid to AMSS. AMSS will complete the listing with the NAAB.
5. All bull registrations will be registered from the AMSS office only.
